ACRYLIC POSTER FRAME

Acrylic is considered an attractive material for displaying advertising material because of its simplicity and affordability while still looking great. These acrylic frames show your customers you take pride in the messages you are communicating. Good presentation needn't be expensive or difficult.

SIZES

ADBOARD

The Adboard is an exciting new development in 'real time' advertising. This illuminated message board enables you to write an advertising message to customers on a glass surface, using a special ink pen that can be removed easily and illuminates.
