

windowfit range

Window display areas provide fantastic advertising opportunities, but can pose logistical problems. Finding a high quality, durable and appealing way to suspend banners, brochures, flags and posters on windows while still presenting your brand professionally can be difficult and expensive. The patented **WindowFit system** uses premium quality, high powered suction technology and fittings that enable you to suspend advertising materials from glass without needing tools, adhesives or specialist shop fitting staff.

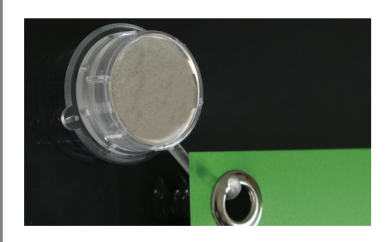

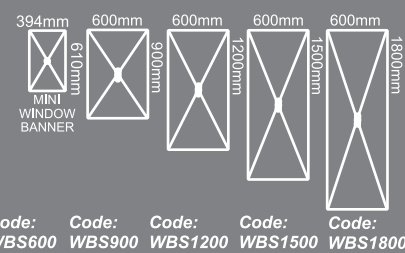

WINDOW FLAG STATION

A number of flags in a row produces a powerful brand presence that is clean, elegant and noticeable. Flags can be angled towards the most advantageous viewpoint to ensure you get noticed.

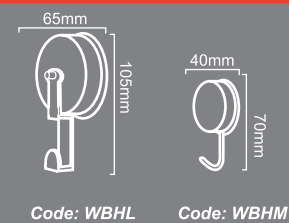

WINDOW BANNERS

Easily adjusted into different positions and angles to create the best look for your store or can be angled towards the best viewpoint for your customers.

WINDOW BANNER HOOKS

No need for wire, screws or adhesives. Use a high powered suction device to attach to any glossy surface without a hole or stain after removal. Each hook holds 5 kg's for long periods.

WINDOW POSTER SPRING

From a price on a supermarket shelf to a poster, you can advertise on any glossy surface like glass, tiles, plastic or stainless steel without adhesives, staples or bluetack. Present information in a number of ways, from hanging to sitting up. Use one for small cars and two for posters.

WINDOW BROCHURE HOLDER

A simple and elegant multi-purpose rack for books, brochures, and advertising materials in hotels, exhibition spaces, show rooms, office reception areas, and even bathrooms - they are perfect for places ranging from small shops to large commercial places.
